

Tong Making

Otto has been an avid blacksmith for 13 years and studied blacksmithing at ACBA in Charleston, South Carolina, and Hereford College of Arts. He is currently the proprietor and full-time blacksmith at Innovation Forge and a certified National Curriculum Instructor with ABANA. He also manages and teaches at David Norrie Blacksmith School.

Host: Otto Engel

I will demonstrate how to make various types of tongs, including box and bolt jaw tongs. We will discuss multiple methods and tools that can help with each style including welding on the reins.. Both hand and power tool options will be shown.

Time: Sat, January 20th,
8:30 arrive; Demo 9:00 AM to 4:00 PM

Cost: \$15 For RMS members; \$20.00 for non-members.

Many local restaurants are available close by for lunch or bring your own. We can also order group pizza at an extra cost.
