

ROCKY MOUNTAIN SMITHS PRESENTS:

Induction Forge Coil Building Workshop

February 24th, 2024

With Evan Blackstock

In this workshop I will demonstrate techniques for making a variety of coils, and coach you on making additional coils for your induction heater.

We will have some tubing available for purchase, but encourage you to bring your own 1/4" copper tubing and corresponding flare nuts. Also bring any other coil making / tube bending tools or materials you have.

Limited to 6 people, due to small work space and tools needed. Email Evan at evan.blackstock@colorado.edu to sign up.

Workshop will take place at Evan's home shop in Arvada:
Address is 9151 W 66th Ave Arvada, CO 80004.

We will start at 9am and work until we are done (or ~3pm). Feel free to bring lunch, or there are many food options nearby.

Cost: \$15 for RMS members, \$20 for non-members. Additional fees for materials purchased may apply.
